THE RULES

(In [=I] the subproofs have no other premises, and a does not occur in the conclusion.)

THE PROBLEMATIC PROPERTY

Let P be $\langle x: \langle y: x \in x \rangle = \langle y: \bot \rangle \rangle$. Then we have:

THE PROOF

$$\frac{\left[\alpha \in \langle y : P \in P \rangle\right]^*}{P \in P} \underbrace{\left[\varepsilon E\right]}_{\left[y : P \in P \rangle\right]^*} \underbrace{\left[\varepsilon E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^*}_{\left[z \in E\right]} \underbrace{\left[\varepsilon E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : P \in P \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : P \in P \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\varepsilon E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : P \in P \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\varepsilon E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\varepsilon E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\varepsilon E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[z \in E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[z \in E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[z \in E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[z \in E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[z \in E\right]}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]} \underbrace{\left[\alpha \in \langle y : \bot \rangle\right]^{\dagger}}_{\left[z \in E\right]}
